## Statement on the REACH Regulation EC. No. 1907/2006

The following aspects of the REACH regulation are relevant for ASSMANN ELECTRONIC GmbH within the supply chain:

### 1. *Obligation to register substances*

As a manufacturer / importer of an article we must register substances in articles according to REACH regulation, which are contained in a total quantity of 1 ton per year and per manufacturer and which are released under normal or reasonably foreseeable conditions of use.

**All products manufactured by ASSMANN ELECTRONIC GmbH or imported into the EU do not contain any substances that are released under these normal or reasonably foreseeable conditions of use.** Thus, the obligation to register substances under REACH for products manufactured by ASSMANN ELECTRONIC GmbH or imported into the EU is not applicable!

### 2. *Reporting obligation to the REACH agency*

ASSMANN ELECTRONIC shall notify the Agency if substances of very high concern (e.g., substances which meet the criteria of Article 57) are present in a concentration greater than 0,1 % by mass and in a total quantity greater than one ton per year. The list of "Substances of Very High Concern" (SVHC) was first published in a candidate list at the End of October 2008, before it was included in Annex XIV of the REACH Regulation. Future revisions of this candidate list are also part of this agreement. ASSMANN ELECTRONIC GmbH will of course comply with this notification obligation.

### 3. *Information obligations towards the customers of the products according to the Article 33*

**DIGITUS product range of industrial switches (item no. DN-651146 - DN-651161) contain lead in quantities > 0.1 % by weight where Lead (Pb) CAS 7439-92-1; EC 231-100-4 was detected in copper alloy. Since our products are tested and approved for industrial use, there is no risk in handling, using or recycling the products if the relevant technical specifications and guidelines are adhered to!**

### Annex XVII

Regarding the substance restrictions listed in Annex XVII of the REACH Regulation, we inform you that our products do not fall under the currently listed restriction conditions.

Note: This declaration has been prepared and issued based on the laws and regulations in force at the time and to the best of our knowledge.

The ASSMANN ELECTRONIC GmbH team will be pleased to answer your questions at any time.
