Reach Declaration of Compliance

Date July 6, 2016

Xindao B.V. declares that the product:

P732.04 Smart office bag serie 3 sku

is compliant with REACH Regulation no 1907/2006:

- a. Restricted substances are not used in the item or are within legal limits as stipulated in the EU laws and regulations.
- b. The product is supplied by following the requirement of substances of very high concern (SVHC). The following SVHC substances may be contained in the item in the concentration of more than 0.1% by mass. Whether these substances are actually present in the item we cannot guarantee it is our duty to provide information even in the case of possible presence of some of the listed substances SVHC in the item.

REACH

REACH is the European Community Regulation on chemicals and their safe use (Registration, Evaluation, Authorisation and Restriction of Chemical substances). REACH is a standard for regulating chemicals and substances in all articles. All products for EU has to be compliant with REACH.

REACH, SVHC

SVHC (**S**ubstance of **V**ery **H**igh **C**oncern), that are included in REACH and this number of SVHC list is changing as substances are added. Following rules apply:

- 1. If the SVHC content in the product is <0.1% of the total item weight and total amount that the importing company is importing is <1 ton/year , there is no notification necessary.
- 2. If the SVHC content in the product is <0.1% of the total item weight and total amount that the importing company is importing is >1 ton/year, there is no notification necessary.
- 3. If the SVHC content in the product is >0.1% of the total item weight but the amount that the importing is company is importing is <1 ton per year, the company should inform the supply chain about this fact on request. Doing a test is not mandatory but it is obliged to confirm in writing that the content of substance x present in the item is >0.1% of the weight. However, if the customer asks for a test report, this can be made but the costs will be charged to the customer.
 - Notification information includes: identify of registrant, identify of substance, registration number (if available), classification and labelling, description of use (substance & article), tonnage range (the importing company should have a report / statement available within 45 days after delivery)
- 4. If the SVHC content in the product is >0.1% of the total item weight and total amount that the importing company is importing is >1 ton/year , the substance shall be notified to ECHA.

SVHC content in article	Export Amount of SVHC per year	Action need to do
< 0.1%	< 1 ton/year	none
< 0.1%	> 1 ton/year	none
> 0.1%	< 1 ton/year	Information transmission in supply chain
> 0.1%	> 1 ton/year	Notification to ECHA

At Xindao we do not have any SVHC substances which we import > 1 ton /year

REACH Annex XVII

This is the restricted substance list. These substances, such as low cadmium/AZO in bags are tested by us. The covered substances in the product must meet the European requirements. It is not permitted to sell the product if any covered substance fail the requirement or limit specified in Annex VXII in REACH. At Xindao we have these related test reports available on our webshop.
