Test item	
Product designation Bluetooth Spe	aker
Brand name My Music	A HE AND A
Test model: B73	
Series model B70, B70-B, B	70-A, B73-B
Rating(s): 5.0V	
Particulars	
Equipment mobility	Movable hand-held Mtransportable stationary for building-in direct plug-in
Connection to the mains	 pluggable equipmenttype Atype B
	permanent connection
GO AT AT	detachable power supply cord
	Anot directly connected to the mains
Operating condition	
Access location	□rated operating/ resting time: · ⊠operator accessible
Access location	restricted access location
Over voltage category(OVC)	: OVC I OVC II OVC III OVC IV Øother
Mains supply tolerance(%) or absolute mains supply values	. N/A
Tested for IT power systems	: □Yes ⊠No
IT testing, phase-phase voltage(V)	: N/A
Class of Equipment	E Class I Class II ⊡Class II ⊡Class III
Considered current rating of protective device as part of the building installation (A)	
Pollution degree(PD)	: PD 1 PD2 PD3
Protection against ingress of water	: IPX0
Altitude during operation (m)	: 2000m
Altitude of test laboratory (m)	: <500m
Mass of equipment (kg)	: Less 1kg
Test case verdicts	
Test case does not apply to the test object	: N (/A)
Test item does meet the requirement	: P (ass)
Test item does not meet the requirement	: F (ail)
Testing	C' CU Pre
Date of receipt of test item	: May 24, 2017
Date(s) of performance of test	: May 24 – Jun. 06, 2017

The results showed this test report refer only to the sample(s) tested unless otherwise stated and the sample(s) are retained for 30 days only. General remarks

This report shall not be reproduced except in full without the written approval of the testing laboratory. The test results presented in this report relate only to the item tested.

"(See remark #)" refers to a remark appended to the report.

"(See appended table)" refers to a table appended to the report.

Throughout this report a comma is used as the decimal separator.

Report Revise Record:

General product information

The product supplied by built-in Li-Polymer Battery, and charged from Micro-B USB port, which is considered as moveable and Class III (supplied by SELV).

All models are identical except for model name and appearance, no impact safety. All test were conducted with model B73 to represent all models.

Instructions and equipment marking related to safety is applied in the language that is acceptable in the country in which the equipment is to be sold.

The product was submitted and tested for use at the manufacturer's recommended ambient temperature (Tma) of 40 °C.

Summary of testing

The test item passed.

Copy of marking plates

The artwork below may be only a draft. The use of certification marks on a product must be authorized by the respective NCBs that own these marks.

Bluetooth Speaker My Music 🛛 Model: B73 Input: 5.0V === 0.5A

Made In China

Importer: X X X X X X

Address: × × × × × ×

Remark:

1) The CE marking and WEEE symbol (if any) should be at least 5mm and 7mm respectively in height. 2) The markings and instructions are the minimum requirements required by safety standard. For final production samples, the additional markings which do not give rise to misunderstanding may be added. 3) As declared by the applicant, the importer (and manufacturer, if it is different)'s name, registered trade name or

mark and the postal address will be marked on the products before being place on the market. 4) Marking on the packaging or in a document accompanying the electrical equipment is only acceptable if it is not

possible to place such markings on the product.

5) Marking of other models are identical except for model name.

The results showing this jest report refer only to the sample(s) tested unless otherwise stated and the sample(s) are retained for 30 days only. The document is issued by AGC, this document cannot be reproduced except in full with our prior written permission. The more details and the authenticity of the report will be confirmed at http://www.agc-cert.com.

Report No.: AGC00924170504ES01 Page 41 of 52

	EN 60950-1		
Clause	Requirement – Test	Result – Remark	Verdict
~	ZB ANNEX (normative) SPECIAL NATIONAL CONI	DITIONS (EN)	1 B
3.2.1.1	In the United Kingdom , apparatus which is fitted with a flexible cable or cord and is designed to be connected to a mains socket conforming to BS 1363 by means of that flexible cable or cord and plug, shall be fitted with a 'standard plug' in accordance with Statutory Instrument 1768:1994 - The Plugs and Sockets etc. (Safety) Regulations 1994, unless exempted by those regulations.	Carrier AGC	N
	NOTE 'Standard plug' is defined in SI 1768:1994 and essentially means an approved plug conforming to BS 1363 or an approved conversion plug.	DOC 1	, O'
3.2.1.1	In Ireland , apparatus which is fitted with a flexible cable or cord and is designed to be connected to a mains socket conforming to I.S. 411 by means of that flexible cable or cord and plug, shall be fitted with a 13 A plug in accordance with Statutory Instrument 525:1997 - National Standards Authority of Ireland (section 28) (13 A Plugs and Conversion Adaptors for Domestic Use) Regulations 1997.	A BOC	N N
3.2.4	In Switzerland, for requirements see 3.2.1.1 of this annex.	F. Part	N
3.2.5.1	In the United Kingdom , a power supply cord with conductor of 1,25 mm2 is allowed for equipment with a rated current over 10 A and up to and including 13 A.	GC >	N
3.3.4	In the United Kingdom , the range of conductor sizes of flexible cords to be accepted by terminals for equipment with a RATED CURRENT of over 10 A up to and including 13 A is:	· 5.8.3 - 5.8	N
4.3.6	 1,25 mm² to 1,5 mm² nominal cross-sectional area. In the United Kingdom, the torque test is performed using a socket outlet complying with BS 1363 part 1:1995, including Amendment 1:1997 and Amendment 2:2003 and the plug part of DIRECT PLUG-IN EQUIPMENT shall be assessed to BS 1363: Part 1, 12.1, 12.2, 12.3, 12.9, 12.11, 12.12, 12.13, 12.16 and 12.17, except that the test of 12.17 is performed at not less than 125 °C. Where the metal earth pin is replaced by an Insulated Shutter Opening Device (ISOD), the requirements of clauses 22.2 and 23 also apply. 		N
4.3.6	In Ireland , DIRECT PLUG-IN EQUIPMENT is known as plug similar devices. Such devices shall comply with Statutory Instrument 526:1997 - National Standards Authority of Ireland (Section 28) (Electrical plugs, plug similar devices and sockets for domestic use) Regulations, 1997.	AGC	CCN S

The results shown the set report refer only to the sample(s) tested unless otherwise stated and the sample(s) are retained for 30 days only. The document is issued by AGC, this document cannot be reproduced except in full with our prior written permission. The more details and the authenticity of the report will be confirmed at http://www.agc.cent.com.
