List of Attachments (including a total number of pages in each attachment):

- 1, For requirements of European group differences. (19 pages)
- 2, Photo attachments.(3 pages)

#### Summary of testing:

Tests performed (name of test and test clause):

- 1 General
- 2 Protection from hazards
- 3 Wiring, connections and supply
- 4 Physical requirements Abnormal operating and fault
- 5 conditions

#### **Testing location:**

Shenzhen HUAK Testing Technology Co., Ltd. 1F, B2 Building, Junfeng Zhongcheng Zhizao Innovation Park, Heping Community, Fuhai Street, Bao'an District, Shenzhen, China

Summary of compliance with National Differences: List of countries addressed European group differences.

The product fulfils the requirements of <u>EN 60950-1:2006+A11:2009+A1:2010+A12:2011+A2:2013.</u>

#### Report No.: HK1908011866-SR

#### General remarks:

"(See Enclosure #)" refers to additional information appended to the report. "(See appended table)" refers to a table appended to the report.

**Throughout this report a**  $\Box$  **comma /**  $\boxtimes$  **point is used as the decimal separator.** The related applicable OSM decisionshave been considered and therequirements found fulfilled. Determination of the test result includes consideration of measurement uncertainty from the test

equipment and methods.

#### Manufacturer's Declaration per sub-clause 4.2.5 of IECEE 02:

The application for obtaining a CB Test Certificate includes more than one factory location and a declaration from the Manufacturer stating that the sample(s) submitted for evaluation is (are) representative of the products from each factory has been provided

Not applicable

**Yes** 

#### When differences exist; they shall be identified in the General product information section.

Name and address of factory (ies) .....: : Same as manufacturer

General product information:

The product is Wireless Phone Charger to be indoor use, electronic components mounted on PCB, external enclosure is plastic material of min. V-1 grade.

The products only suitable connected to the Power supply which has been certified.

Maximum recommended ambient (Tmra): 25°C

N.C.

#### Abbreviations used in the report:

- normal conditions
- functional insulation **OP**
- double insulation **DI**
- between parts of opposite polarity BOP
- single fault conditions
  basic insulation
  supplementary insulation
- BI SI

RI

S.F.C

- reinforced insulation

Indicate used abbreviations (if any)
