

Production Test Report

SERVICE REFERENCE			
Item No.	P422.412	Order No.	PU032263
Supplier Name	S63166	Order quantity	3200
Purchaser	Zlata Jesic	QC Date	11/15/2019
Test By	Luck	Test Date	11/18/2019
TEST RESULT	PASS		
	SEE DETAILS BELOW.		

PVC is a kind of material always accompanied with high-risk chemical substances such as SCCP and Phthalates which are prohibited from using or taking as ingredients to the main substance according to EU legislation requirements.

Suppliers should be informed, as a requirement, all Xindao items should be free of PVC material.

Exceptionally, if a supplier claims a special grade of PVC material which does not contain SCCP or Phthalates, then we need to verify it through a third party lab. However, any possible extra expenses thus entailed shall be borne by the suppliers.

Since we found this shipment is against the EU legislation requirements, Xindao Quality Department suggest reject the shipment until elimination of the risks.

If the shipment has already been on board, Xindao Quality Department suggest to recall the shipment or take action of destruction immediately.

XINDAO
